

Not getting expected result from Task Scheduler

Scope: To copy “.bak” file created on server to desktop via TASK Scheduler on Client.

The Server and Client are connected via Workgroup. Folder on server is mapped with Drive letter (Y:)

Part 1: Prepare a BATCH file to copy (The batch file is inset.)

When the Batch file ‘copyback.bat’ executed and the ‘db_back.bak’ is copied from SERVER to CLIENT pc. The file name changes to ‘db_back_dd-mm-yyyy.bak’ while copying.

Name	Date modified	Type	Size
